Schluter Profiles
Details make the difference
Many homeowners approach tile installation projects with a list of materials consisting of thin-set, tiles, and grout...But it doesn’t stop there. In fact, the only way to achieve a tile installation that is as beautiful as it is functional is through the use of finishing and edge-protection profiles.

Ceramic and stone tiles have become a popular trend in the design industry due to the durability and aesthetic appeal they offer. The extensive variety of available shapes, colors, patterns, and sizes opens the door to unlimited design possibilities. Unfortunately, a lack of trim pieces such as bullnose or quarter round in many tile lines can limit design options.

Schluter-Systems offers a solution to this problem with various finishing and edge-protection profiles, which increase design flexibility because they can be integrated with any field tile.

Protect the edges

Though tiles are extremely durable, their edges are vulnerable to chipping and cracking if left unprotected. Imagine investing your time, money, and hard work into a tile project, only to end up with chips in your tile edges.

Schluter profiles are designed to produce a long-lasting installation by protecting tile edges from damage.

Caulking - a thing of the past

Nobody likes caulking. It is used purely out of necessity to seal joints or seams, and allow for movement at floor/wall transitions and inside wall corners, or where tile meets a fixed element. Not only is caulking unsightly, it is not a permanent solution.

Schluter profiles eliminate the need for caulking in tile installations. With cove-shaped profiles for floor/wall transitions and inside wall corners, and movement joint profiles with flexible zones to absorb movement, caulking has become a thing of the past.

Just for looks

While the majority of profiles are produced to meet functional installation needs, they can also be used to enhance design. Schluter decorative profiles are produced exclusively for design purposes and are available in a variety of finishes to accent the field tile, match fixtures in the room, or create a decorative border around a mosaic insert.

A profile for every style

Schluter profiles can blend with the tile color for a subtle finish, or contrast with the tile to create an accent. Whatever your design style, the wide variety of available materials, finishes, colors, and styles of Schluter profiles helps ensure you will find a profile suiting your decor and installation needs.

Unleash your creativity!

In the KITCHEN

Tiled countertops provide the perfect combination of functionality and beauty. They are resistant to high heat, staining, and scratching, and are easy to clean. Plus, today’s large-format tiles allow for minimal grout joints. Schluter profiles make it easy to produce stunning sink rails, hygienic backsplash transitions, and practical tiled-under sinks.
Tuscan beige profiles blend perfectly with the large-format tiles on the countertop, and frame the mosaic insert in the backsplash in this modern kitchen.
The satin anodized aluminum profile on the sink rail creates a bold, sleek finish in this modern kitchen design.
This charming country kitchen was given a modern twist with nickel profiles and stainless steel appliances.

**RONDEC** bullnose profile and corners used to finish the tile edges of the backsplash and tile base. **RONDEC-CT** double-rail edging profile applied to the sink rail. **DILEX-AHK** cove-shaped profile used to create a smooth transition between the countertop and backsplash.
Unique porcelain tile, natural wood, and terra-cotta accents give this kitchen a rustic feel, while stainless steel profiles and fixtures add a modern touch.
Subway tiles on the backsplash, porcelain tiles with granite look, and brushed aluminum profiles match the appliances creating this contemporary kitchen.

RONDEC bullnose profile and corners used to finish the countertop trim and tile edges of the backsplash. RONDEC was also used to produce the tiled-under sink. RONDEC-CT double-rail edging profile applied to the sink rail. DILEX-AHK cove-shaped profile used to create a smooth transition between the countertop and backsplash.
The timeless beauty of ceramic and stone tiles can bring a relaxing spa feeling home. Schluter profiles are suitable for creating hygienic transitions and protecting tile edges in wet areas. They can also be used to frame shower niches and mosaic inserts, or as accents in tile fields.
White and Tuscan pewter profiles blend with the floor and wall tiles, while a beautiful glass mosaic wall and elegant linear drain complement this modern bathroom.
Hexagon shaped tiles installed on the floor and wall of this shower accent the design, while Tuscan bronze profiles complement the rich brown colors and create clean finished edges and corners.

QUADEC square-shaped profile and corners applied to tile edges and outside corners of the shower including the shower bench and niche, and used to finish the tile base. DILEX-AHK cove-shaped profile and corners used to create a smooth transition between the walls and floor.
Stainless steel profiles and a sleek linear drain accent the stunning mosaic tile in this contemporary barrier-free bathroom.
QuaDec: square-shaped profile and corners applied to the tile edges of the bathtub skirting and wall tile, and used to trim the niches. QuaDec-FS double-rail edging profile applied to the sink rail. DileX-ENK cove-shaped profile used to create smooth floor/wall and countertop/wall transitions.

Brushed stainless steel profiles add a modern touch to this rustic bathroom, creating a spa-like feel.
The tile chosen for this shower offered beautiful listellos, but no bullnose tile for the edges. Light beige profiles integrated perfectly with the tile and eliminated the need for matching bullnose tile.
Brushed nickel profiles and fixtures add a cooling touch to the warm natural stone and glass mosaic tiles in this bathroom.
Satin nickel profiles installed throughout this modern bathroom match the shower fixtures and drain grate creating a professional, finished look.
Light beige profiles create a subtle finish by blending with the neutral tiles in this contemporary bathroom.
Leaving tile edges unfinished not only leads to damage, it also drastically diminishes the aesthetic appeal of the design. Schluter profiles finish and protect tile edges, helping to ensure your installation will stand the test of time.
Profiles for countertops finish and protect exposed edges of tiled surfaces. The various finishes available offer endless design possibilities.
