The tekmar 0 – 135 Ω Converter 005 allows for the signal conversion of a 4 – 20 mA input signal from a control to a 0 – 135 Ω output signal. The 005 allows for conduit to directly attach to the enclosure. The 005 enclosure is flame-retardant and can withstand high temperatures.

**Installation**

**STEP ONE ———— GETTING READY**

- Check the contents of this package. If any of the contents listed are missing or damaged, please contact your wholesaler or tekmar sales representative for assistance.

- Type 005 includes: One 0 – 135 Ω Converter 005 and Data Brochure D 005.

**STEP TWO ———— MOUNTING THE CONVERTER BASE**

- Remove the screw and pull the front cover off the converter enclosure.

- The 005 can either be mounted directly on a wall or on a 2" x 4" electrical box. When the 005 is wall mounted, the wiring should enter through the knockout on the bottom of the enclosure.

- The 005 should be located in a position such that it will not be accidentally damaged.

**STEP THREE ———— WIRING**

- All electrical wiring terminates in the 005 enclosure. The back and bottom have standard 7/8" (22 mm) knockouts that accept common wiring hardware and conduit fittings.

- The 005 has two separate converter circuits. One is for Modutrol IV™ gas valve actuating motors and the other is for V9055™ gas valve actuating motors.

- Select the appropriate conversion circuit for the installation.

- Use 18 AWG or similar wire to connect the positive (+) and negative (-) terminals to the modulating output on the control. The wire should be run through a grounded metal conduit.

- Use 18 AWG or similar wire to connect the W, R, and B terminals to the W, R, and B terminals on the gas valve actuator wiring terminals. The wire should be run through a grounded metal conduit.

- Replace the front cover of the enclosure.

*Modutrol IV™ and V9055™ are trademarks of Honeywell, Inc.*
Caution The nonmetallic enclosure does not provide grounding between conduit connections. Use grounding type bushings and jumper wires.

Attention Un boîtier nonmétallique n’assure pas la continuité électrique des conduits. Utiliser des manchons ou des fils de accord spécialement conçus pour la mise à la terre.

**Limited Warranty and Product Return Procedure**

The liability of tekmar under this warranty is limited. The Purchaser, by taking receipt of any tekmar product ("Product"), acknowledges the terms of the Limited Warranty in effect at the time of such Product sale and acknowledges that it has read and understands same.

The tekmar Limited Warranty to the Purchaser on the Products sold hereunder is a manufacturer’s pass-through warranty which the Purchaser is authorized to pass through to its customers. Under the Limited Warranty, each tekmar Product is warranted against defects in workmanship and materials if the Product is installed and used in compliance with tekmar’s instructions, ordinary wear and tear excepted. The pass-through warranty period is for a period of twenty-four (24) months from the production date if the Product is not installed during that period, or twelve (12) months from the documented date of installation if installed within twenty-four (24) months from the production date.

The liability of tekmar under the Limited Warranty shall be limited to, at tekmar’s sole discretion: the cost of parts and labor provided by tekmar to repair defects in materials and/or workmanship of the defective product; or to the exchange of the defective product for a warranty replacement product; or to the granting of credit for the original cost of the defective product, and/or the local codes and ordinances; or if due to defective installation of the Product; or if the Product was not used in compliance with tekmar’s instructions, including any liability for fundamental breach of contract.

The pass-through Limited Warranty does not apply if the returned Product has been damaged by negligence by persons other than tekmar, accident, fire, Act of God, abuse or misuse; or has been damaged by modifications, alterations or attachments made subsequent to purchase which have not been authorized by tekmar; or if the Product was not installed in compliance with tekmar’s instructions and/or the local codes and ordinances; or if due to defective installation of the Product; or if the Product was not used in compliance with tekmar’s instructions.

**Technical Data**

**0 – 135 Ω Converter 005**

- **Literature**: D 005
- **Packaged weight**: 0.4 lb. (175 g)
- **Dimensions**: 4-1/2" H x 2-7/8" W x 1-1/2" D (73 x 114 x 38 mm)
- **Approvals**: CSA C US, CSA/UL 61010-1, meets Class B: ICES & FCC Part 15
- **Ambient conditions**: 32 to 122°F (0 to 50°C)
